I am a practising healthcare professional.

Please describe your healthcare occupation:

I have limited mobility

I require assistance in reaching my seat

I require wheelchair access

I do not need assistance but would like a reserved seat

Dietary Requirements

Please describe any dietary restrictions (for the pre-lecture reception):

Please return completed form to: **Mrs Pat Stewart, Hon Secretary,
Parkinson's UK Edinburgh Branch, PO Box 28819, Currie, EH14 9AT**

Data Protection

We would like to keep you informed about the work of Parkinson's UK. If you would not like to receive further information about our activities then please tick this box.

We will not share your details with any other third party or organisation for marketing purposes other than that of Parkinson's UK.

OUR SPONSORS

Edinburgh Branch, Parkinson's UK

We help people with Parkinson's, their families and friends in Edinburgh and Lothian in any way we can. We offer opportunities for members to meet, share experience and support each other as well as information about health and life style issues, and a broad range of group activities. We also represent local Parkinson's interests to NHS Lothian and other agencies. We want the best standards of care and medical facilities for people with Parkinson's in Lothian.

MRC Centre for Regenerative Medicine, University of Edinburgh

The MRC Centre for Regenerative Medicine is a world leading research centre based at the University of Edinburgh. The researchers study stem cells, disease and tissue repair to advance human health. The Centre is based at the Scottish Centre for Regenerative Medicine building, on a site shared by the Royal Infirmary Hospital and the University's Clinical Research facilities. With new state-of-the-art facilities and a team of scientists and clinicians, the Centre is uniquely positioned to translate scientific knowledge to industry and the clinic.

The Edinburgh Parkinson's Lecture 2013

Non-motor symptoms of Parkinson's: Important yet often neglected. Why?

A lecture by K Ray Chaudhuri DSc MD FRCP Professor of Movement Disorders, King's College London

Royal College of Physicians of Edinburgh
9 Queen Street, Edinburgh EH2 1QJ
Thursday 25 April 2013 @ 7.15pm

www.edinburghparkinsons.org/application

OUR SPEAKER, PROFESSOR RAY CHAUDHURI

BIOGRAPHY

K Ray Chaudhuri is Professor in Neurology/ Movement Disorders and Consultant Neurologist at Kings College and the Institute of Psychiatry, London Academic Health Sciences Centre. He is also principal investigator at the MRC Centre for Neurodegeneration Research at Kings College, London and medical director of the National Parkinson Foundation International Centre of Excellence at Kings College, London.

Professor Chaudhuri is the author of 215 papers including reviews, book chapters, co-editor of 4 books on Parkinson's disease and Restless Legs Syndrome and over 200 published peer reviewed abstracts. His major research interests are continuous drug delivery treatment of PD and restless legs syndrome, Parkinsonism in minority ethnic groups and sleep problems in PD. In 2005 he was awarded the DSc degree by the University of London.

NON-MOTOR SYMPTOMS OF PARKINSON'S: IMPORTANT YET OFTEN NEGLECTED. WHY?

Non-motor symptoms (NMS) of Parkinson's affect every patient and carer, occur before the onset of "motor" Parkinson's and progress as the condition develops. Yet it is the least researched, funded, or understood group of symptoms and poses the greatest challenge to clinicians and health care professionals.

Professor K Ray Chaudhuri and his international non-motor group have pioneered clinical research in NMS in Parkinson's and in this talk he will review and explore major new developments in Parkinson's research with particular reference to:

- The key effect of the range of NMS on quality of life of people with Parkinson's and their carers.
- New knowledge on treatment of various NMS of Parkinson's such as fatigue, pain, sleep disorders, depression, apathy and dribbling of saliva.
- A new way of "staging" Parkinson's in the clinic using NMS, moving away from the old-fashioned systems.
- New scales and questionnaire for assessing NMS in the clinic.

LECTURE PROGRAMME

7:15pm Thursday, 25th April. Entry to the venue is from 5.45 pm. There will be a reception with light refreshments before the lecture.

Introduction	by Professor Siddharthan Chandran, MacDonald Professor of Neurology, University of Edinburgh
Lecture	by Professor Ray Chaudhuri
Question session	chaired by Dr Conor Maguire, Clinical Director of Medicine for the Elderly, Western General Hospital, Edinburgh
Closing remarks	by Dr Kieran Breen, Director of Research and Innovation, Parkinson's UK

SPONSOR EXHIBITION DETAILS

Prior to the lecture there will be a small exhibition by the pharmaceutical companies that are sponsoring this event. Access to the exhibition will be for practising healthcare professionals only, due to ethical restrictions.

APPLICATIONS FOR TICKETS

Admission is FREE but by ticket only. Applications may be made by using the online form at the web page www.edinburghparkinsons.org/application

Tickets will be issued on a first-come first-served basis.

Applications may also be made by post, using the attached application form, which should be completed and returned to:

**Mrs Pat Stewart, Hon Secretary, Edinburgh Branch, Parkinson's UK,
PO Box 28819, Currie EH14 9AT**

Seating in the first two rows of the lecture theatre will be reserved for those with limited mobility.

Please note that due to Health and Safety requirements the venue can only accommodate up to five wheelchairs.
